Discovery in Sun Spots.

Sir Norman Lockyer, the British astronomer, has advanced a remarkable new theory concerning the utility of sun spots, says the Scientific American. Our knowledge of sun spots is distinctly limited, and Sir Norman Lockyer contends that the discovery and understanding of these phenomena will prove one of the most beneficial additions to the world in general. He advances the theory that such knowledge may enable astronomers to convert the sun into an agent to enable us to cope with droughts and famines and that the spots on the sun may render it possible to predict with practical certainty the coming of famine and the exact part of the world where it will take place.

Chloroform and Chloroform.

MUST BELIEVE IT

When Well-Known Barre People Tell It So Plainly:

When public endorsement is made by a representative citizen of Barre the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

G. A. Churchill, contractor and builder, residence 40 Merchant street, says: "I gave an endorsement for publication in our Barre papers in the winter of 1897, which stated that Doan's Kidney Pills, sold at E. A. Brown's drug store, had acted with me as represented, and I recommended them to any resident needing a remedy for his kidneys. Since that time I have had no reason to change my opinion and you are welcome to again use my original endorsement so that others may know what to do if annoyed with a steady pain across the back like I had for two years—one that prevented me from remaining in any position for any length of time, which was always noticeable in the morning and caused me annoyance to dress myself, for which I used physicians' treatments and a great many medicines, but never received any permanent benefit. I cannot remember whether I took two or three boxes, but this I know, I have never had occasion to use the preparation since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no other.

Soap and Sugar Poultice.
When a small swelling appears on one's finger and there is evidence of a runround or a small fester a fluy poultice of soap and sugar will draw it to a head in a few hours, when it can be opened, the wound washed out carefully and thoroughly and then done up in clean gauze.
